Participating Institutes

Virtual Labs provides a fully interactive simulation environment to perform experiments, collect data, answer questions to assess the understanding of knowledge acquired. In order to achieve the objective such an ambitious project, it is essential to develop virtual laboratories with state-of-the-art computer simulation technology to create real world environments and problem handling capabilities. IIT Delhi as the Nodal Institute and other 10 institutes is understanding this initiative.

- To provide access to virtual laboratories in disciplines of Science and Engineering
- Implemented by IIT Delhi
- To share costly equipment and resources, which are otherwise available to limited number of users due to constraints on time and geographical distance
- Cover 100 Virtual Labs, approximately 1000+ web-enabled experiments.
