## **Janus Meritorious Students' Scholarship Programme**

This programme was initiated in 2015, when scholarship was given to 3 students who were meritorious but economically weak. The aim behind this scholarship is the promote higher education among meritorious but economically weaker students. We believe that if they are properly educated they will be able to support a whole generation in a better way. From 3 students in 2015, we are giving scholarship to 20 students at present and 12 students have already received their complete scholarship for 3 years. Our target is to provide scholarship to about 50 students yearly in next 5 years. These students should belong to economically backwards section of the society but should be meritorious and have a clear vision about their future. We thank our contributors for their support and cooperation for making this programme a success.
