

REPORT ON “WORLD MOSQUITO DAY”

UNDER THE COMPLIANCE OF FIT INDIA CAMPAIGN

DATE: 20h August, 2020

20th August, 2020, 1/48 Bn NCC, Gonda, observed the “**World Mosquito Day**”, under the **Online Awareness Campaign on Fit India, launched on 15th August 2020 by DG, NCC, New Delhi, at Shri Lal Bahadur Shastri College, Gonda**. World Mosquito Day is celebrated each year on 20th August, to commemorate the discovery of the link between mosquitoes and Malaria by Dr. Ronald Ross and to raise awareness about the causes of Malaria and its symptoms so that people are careful by doing the needful to stop mosquito breeding.

The cadets at Shri Lal Bahadur Shastri College, Gonda, led by their ANO/CTO Dr. Pushyamitra Mishra, were given the theme of “**Let’s Walk The Talk**”, where instead of verbal teaching, they actually demonstrated and executed in a decentralised manner, how various simple precautions can be adopted by each and every citizen to combat mosquito breeding and the spread of deadly diseases like malaria, dengue, etc.

The enthusiasm and overwhelming response of the cadets was highly appreciable. They took the initiative to go around the places in the vicinity of their residences, and get rid of any stagnant water, sprinkling bleaching powder in the areas which had become marshy in the rainy season, emptying out stale water from any pots lying outside their houses or the roof tops, etc, all of which are potent areas of mosquito breeding. The cadets participated actively in the drive to motivate the people in their neighbourhoods to also adopt and imbibe the simple, yet healthy ways of living, ensuring theirs’ as well as for their families, a healthy, malaria and dengue free life.

“LET’S WALK THE TALK”

The ANO/CTO Dr. Pushyamitra Mishra, teaching the pride in making country clean, picks up the broom to initiate the drive at Shri Lal Bahadur Shastri College, Gonda, campus.
